 Support a free project (association, local initiative)

 Even for family or a circle of friends!

Why not on Facebook?

Create your community via a Facebook group?

- You do not own your group
- Risk of changes to terms and conditions
- Constant advertising and distractions
- Limitation of functionality and scope
- Example of loss of access: the story of **Stephanie Booth**
(<https://climbtothestars.org>)

Why not on dedicated third-party platforms?

Circle.so, Skool.com, MightyNetworks

- **You are still not at home:** ‘Do not build your house on land that belongs to someone else.’ 
- These platforms may close or change their terms and conditions, and are paid for on a monthly basis.
- With WordPress, you retain **your data and your independence.**

FluentCommunity

A modern WordPress extension that is constantly evolving

- Developed by [WPManageNinja](#)
- Already usable in a version [free version](#) (many features)
- Paid version for more advanced features, see [Free vs Pro](#)

Who is WPManageNinja

A company that develops several high-quality, high-performance extensions.

FluentCRM, FluentForms, FluentBoards, now FluentCart (and many others), as well as integrations.

Who is WPManageNinja

The CEO (MD Shajahan Jewel) is very involved and attentive to users feedback. The company (Authlab) contributes to the WordPress open source project.

And... Jewel says [hello in a video](#)

Demo

Now let's add FluentCommunity together on WPRomandie.

Official documentation (on the WPManageNinja website).

What next?

Plugin under continuous improvement

Language strings are missing. What language do you speak? (I can and you can contribute!)

Join the user community

Conclusion

FluentCommunity = your community, your site, your control.

Create an online space that truly belongs to you.
